Framework

Innovation at Swash

Our Developers are innovators, rather than being followers. Since inception, Swash has continuously working on its technical platforms to map itself with the current IT trend. It

enables Swash to use latest platforms to differentiate itself from others. Our aim behind using all the latest technical platforms is to give our clients a scalable solution. Business in current market is no longer limited with traditional boundaries. With rapid change in technology, we ensure that we can deliver best possible technical services to our valuable clients.

Technology Stack

We are recognized by Microsoft as Windows Azure Featured Partner world-wide, Microsoft Cloud Accelerated Partner & Microsoft Small Business Specialist. We specialize in developing strategies and software solutions, which are built around latest Microsoft technologies, to enable IT cost savings and increased profits for our clients. Our KenCloud ERP is built on Windows Azure platform, the most advanced and revolutionary Internet-scale computing and services platform hosted in data centers managed or supported by Microsoft.

Deployment

KenCloud™ ERP Suite is available both as on premise as well Software-as-a-Service (SaaS) models. It is the most preferred choice for businesses across the globe as it encompasses in-built intelligence and business acumen for your industry.

Multi Device Accessibility

The entire suite of products is accessible over the Internet, which gives you the freedom to access information from any part of the globe at the click of a browser button, whether from a laptop, a PDA, mobile phone or a tablet PC. So, you and your colleagues can monitor, manage and execute tasks even when you are on the move.
